ZENITH BANK PLC REPORTS STRONG EARNINGS GROWTH AND PROFITABILITY WITH CONTINUED LIQUIDITY AND ROBUST CAPITAL ADEQUACY

LAGOS, NIGERIA - 03 May 2012 - Zenith Bank Plc, (Bloomberg: ZENITHBA NL / Reuters: ZENITHB.LG) (“Zenith” or the “Bank”), the Nigerian-listed bank headquartered in Lagos, announces its management results for the 3 month period ended 31 March 2012.

Godwin Emefiele, Managing Director and Chief Executive Officer of Zenith Bank Plc, while commenting on the results, he ascribed the bank’s continued superior performance to a well motivated staff force, sustained investment in technology and focus on customer reach and service delivery excellence.

According to Mr. Emefiele: “over the past year we experienced a significant increase in funding cost as average MPR and Money market rates increased 80% through monetary tightening. Despite this headwind we are pleased to have maintained a strong net interest margin through low cost deposit mobilisation and highly efficient balance management. These combined with a drop in our cost of risk to lower and stable levels produced a healthy 26% year on year growth in profit after tax signalling a strong return on equity for shareholders that came in above our expectations. The outlook for the remainder of the year is positive as we expect to sustain the trend in income growth on the back of continued optimal resource allocation and cost efficiencies. However, in view of the fragile global economic environment we continue to maintain a shock proof balance sheet with liquidity and capital adequacy levels well in excess of the minimum statutory requirement.

Financial Highlights

- Gross Earnings of N72.4 billion, a rise of 33%, compared with the equivalent prior year period (N54.3 billion 3 months ended 31 March 2011)
